## *Emanuel Swedenborg (1688–1772)*

A remarkable visionary, Emanuel Swedenborg was well known throughout Europe as a scientist and prolific writer on scientific and philosophical subjects. He devoted the last decades of his life to studying Scripture and writing thirty theological books that draw on the Bible, reasoning, and his own spiritual experiences. These works present a Christian theology with unique perspectives on the nature of God, the spiritual world, the Bible, the human mind, and the path to salvation.

## *Scope and Purpose of the Translation*

**The New Century Edition (NCE)** is a modern-language, scholarly translation of the theological works of one of the world's most extraordinary visionaries. It is a consistent, integral presentation for twenty-first-century readers, scholars, and seekers.

The NCE removes the barriers to understanding imposed by the ponderous, Latinate translations of the past. The NCE's easy-to-read translations, retaining the dignity, variety, clarity, and gender-inclusive language of Swedenborg's original Latin, bring Swedenborg's thought to life, making it accessible at various levels of study and interest.

This translation project is the first to be undertaken by a single publisher and team of translators employing unified standards of translation and scholarship. Contextualizing prefaces and annotations by eminent, international scholars enable readers to trace Swedenborg's influence as never before. ☺
